The below provides examples of the eco initiatives we are proposing for meetings at Le Méridien Bangkok.

GREEN MEETINGS

- Paperless booking and meeting planning with electronic booking programs, requests for proposals and offers as well as the electronic sending of contracts as well as e-brochure, factsheet, menus, and invoices.
- Sustainable green meeting options and "Clutter Free Meetings" where pads of paper, pens, and mints are set as stations in meeting rooms instead of each setting to reduce waste.
- Post-consumer recycled paper for printed materials and flip charts, as well as double-sided printing.
- Environmentally friendly non-paper supplies. Smart resources, including LED signage and whiteboards.
- Potted plants, organically grown flowers or sustainably sourced botanicals.
- Use of glass water containers as an option instead of individual plastic bottles.

GREEN MENU

With Sustainable Food and Beverage practices, every little bit counts. We offer you a choice of sustainable menu items from local and regional producers and suppliers.

- **Full day meeting package starts from**

THB 1,600 per person.

- **Half day meeting package starts from**

THB 1,400 per person.

GREEN STAY

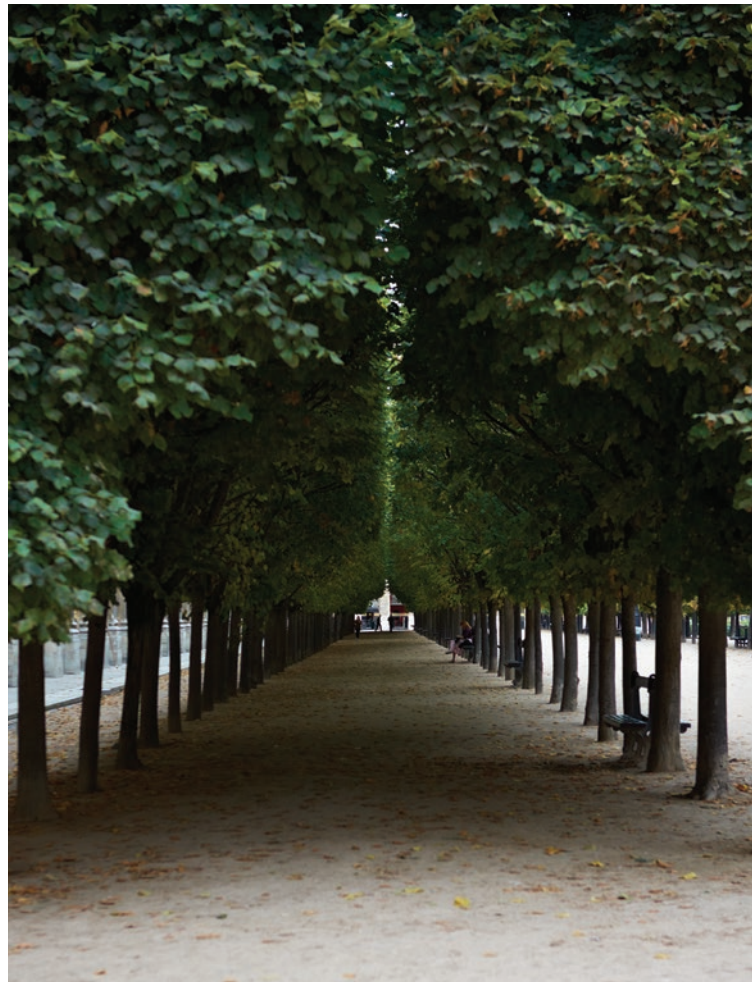

- Reduction of room collaterals.
- LED lightings in the hotel + automated lighting system in guestrooms.
- Guests have the option to use housekeeping service on alternate days.
- Environment protection initiatives – Water consumption, energy efficiency, waste separation, and emission reduction.

AN ENVIRONMENTAL REPORT CARD

After your event, we'll send you a Meeting Impact Report (MIR) that recaps all the sustainable initiatives you selected related to energy and water consumption, waste management, sustainable food choices and meeting services — and the impact of your efforts.

Once your MIR is calculated using the Hotel Carbon Measurement Initiative, you can offset the carbon footprint of your meeting. We'll provide you with a list of donation opportunities that advance emission-reduction projects around the world.
